Bibliography
Updated February 8, 2019

These reference entries include sources that may be cited in class. The purpose of this bibliography is to assist students in finding a source of information if the citation is not contained in the lecture notes or presentation decks. These sources vary widely in terms of their degree of scholarly value, ranging from publications in peer-reviewed scientific and professional journals to internet blog posts describing the personal experiences of individual authors. As a general rule when writing papers, students should cite only scholarly sources and peer-reviewed research.
